2.0 MARKET ANALYSIS 10

Introduction 10

Fleet parc – size, growth and segmentation 11

Overview 11

The fleet vehicle parc in Poland has grown quite rapidly in recent years… 11

… with all types of vehicle increasing in number, especially passenger cars 11

Passenger cars 13

By number of fleet passenger cars, the largest specific segment is that of the motor trade… 13

… just ahead of operating lease firms, although growth in this segment has been fast 13

Commercial vehicles 16

Fleet commercial vehicles in three segments have grown in number at an especially fast rate… 16

… with the total number of such vehicles on track to exceed 1 million in 2017 16

Fleet size brackets 19

The total fleet vehicle parc in Poland splits quite evenly by fleet size 19

Fleet motor insurance – size, growth and segmentation 21

Overview 21

Fierce competition has driven down the value of the fleet motor insurance market… 21

Passenger car fleet motor insurance 23

… albeit the trend has been positive in the segment of operating lease firms… 23

Commercial vehicle fleet motor insurance 26
… in the case of both fleet passenger car insurance and fleet commercial vehicle insurance 26
Fleet size brackets 29
Almost 40% of the total fleet motor insurance market is likely to be due to micro and small fleets combined 29
Fleet road assistance – size and growth 31
The Polish fleet road assistance market expanded at a compound annual rate of 3.4% from 2012 to 2016 31
Distribution partnerships for fleet insurance and assistance 33
Motor insurance 33
Motor insurance has been arranged by all leasing and vehicle hire entities… 33
… with use of multiple external underwriters the most commonly occurring operating model 33
ERGO Hestia, PZU and Warta are the dominant providers in this context 34
GAP insurance 36
The vast majority of leasing firms cross-sell GAP insurance to their customers… 36
… mainly by means of a tie with a single, external underwriter… 36
… such as AXA or Cardif, the most prominent providers in this sphere 37
Road assistance 39
Road assistance is also on offer from virtually all companies in the leasing and vehicle hire categories… 39
… and it is almost always available as a feature of motor insurance… 39
... which results in a supply structure which is similar to that for motor insurance 40
Fleet motor insurance - forecast 42
Overview 42
By vehicle type, premiums are forecast to move up most quickly in the case of heavy commercial vehicles 42
Passenger cars 43
Some passenger car segments will see an increase in premiums while others will experience a decline 43
Premiums for van and lorry hire fleets will advance the most among commercial vehicle segments 45
Fleet road assistance - forecast 47
Up to 2020, fleet road assistance revenues are expected to rise at a compound annual rate of over 4% 47
Future impact of car sharing and driverless cars 49
A global trend in favour of car sharing will affect the passenger car fleet market, in particular 49
Driverless cars are expected to have more of an impact in the medium-term to long-term future 49
