# TABLE OF CONTENTS

**0.0 EXECUTIVE SUMMARY ..... 1**

**1.0 INTRODUCTION ..... 3**

What is this report about? ..... 3

*The development of the bancassurance channel in sub-Saharan Africa is the focus of this report ..... 3*

Rationale ..... 3

*Sub-Saharan Africa hosts a number of fast-growing financial services markets… ..... 3*

*… with bancassurance poised to grow in several of these ..... 4*

Methodology ..... 4

Macro-economics, banking and insurance sectors ..... 4

Survey of banks ..... 4

Market data ..... 5

Definitions ..... 5

Investment-related life insurance ..... 5

Retirement savings ..... 6

Risk life insurance ..... 6

Accident insurance ..... 6

Health / hospital cash plans ..... 6

Medical expenses insurance ..... 7

Personal motor insurance ..... 7

Household insurance ..... 7

Creditor insurance ..... 7

Travel insurance ..... 7

Agricultural insurance ..... 8

Commercial insurance ..... 8

Mortgages and consumer finance ..... 8

Weighted provider share of partnerships ..... 8

Operating models ..... 9

Abbreviations and exchange rates ..... 9

PartnerBASE ..... 10

Finaccord ..... 10

**2.0 REGIONAL OVERVIEW ..... 11**

Introduction ..... 11

Macro-economic background ..... 11

Gross domestic product and purchasing power parity (PPP) ..... 11

*The South African economy retains a narrow lead over that of Nigeria in terms of GDP… ..... 11*

*… although these two countries are likely to have switched places by 2019 ..... 12*

*On a per capita basis, Angola ranks second behind South Africa ..... 14*

Total population, age structure and level of urbanisation ..... 16

*By 2020, the ten African countries combined will have a larger population than that of the entire EU ..... 16*

*Population structures in sub-Saharan Africa are invariably weighted heavily towards younger age groups… ..... 17*

*…but urbanisation levels differ greatly by country ..... 19*

Political risk ..... 21

*Political stability remains one of the key challenges for many countries in the region… ..... 21*

*… with Zambia the most stable country and Angola the most rapidly improving ..... 21*

Other key indicators ..... 23
*Life expectancy at birth has increased quite significantly for both men and women in recent years ..... 23*
*The number of mobile phone subscriptions has increased hugely across the ten countries ..... 25*
Introduction to the banking sector ..... 27
Development of the banking sector ..... 27
*Between 2005 and 2013, the number of bank branches in the ten countries more than doubled… ..... 27*
*…and this rapid development is also reflected in a fast-growing number of deposit accounts ..... 30*
Pan-African banking groups ..... 32
*A number of banking groups operate across multiple countries in Africa… ..... 32*
*… including Barclays, FirstRand, Standard Bank and Standard Chartered… ..... 32*
*… plus BancABC, Bank of Africa Group, Ecobank, KCB Group, UBA Group and Zenith Bank ..... 32*
Consumer lending ..... 32
*On a combined basis, mortgage balances were worth almost USD 92.5 billion in 2013… ..... 32*
*… although the vast majority of this was due to one country, namely South Africa ..... 33*
*In overall terms, non-mortgage consumer credit is growing more rapidly than mortgage lending ..... 35*
Introduction to the insurance sector ..... 36
*Total insurance premiums were worth more than USD 60 billion across the ten countries in 2013 ..... 36*
*In both nominal and real terms, the Ghanaian market has delivered the most rapid growth ..... 37*
*Insurance premiums per capita are lowest in Tanzania and Uganda ..... 39*
*South Africa's life insurance market is more than 80 times larger than its closest rival in Africa… ..... 42*
*… although this multiple is much lower for non-life insurance… ..... 44*
*… as this branch makes up a majority of the total market value in all countries apart from South Africa ..... 45*
Future outlook ..... 47
*Across the ten countries, the combined market value will have reached almost USD 100 billion by 2020… ..... 47*
*… with the importance of South Africa declining slightly within this total ..... 48*
The bancassurance market ..... 50
Regulatory environment ..... 50
*Bancassurance receives a 'green light' in six of the ten countries in sub-Saharan Africa… ..... 50*
*… and an 'amber light' in three others ..... 50*
*Only in Uganda are banks prohibited from selling stand-alone insurance policies ..... 50*
Product range and operating models of the ten leading banks ..... 51
*Across the 100 banks investigated, the vast majority promote insurance in one form or another… ..... 51*
*… with the average number of products marketed per bank highest in Kenya and South Africa ..... 52*
*Insurance products bundled with mortgages and consumer loans are most commonly marketed… ..... 53*
*…and funeral expenses and risk life insurance are the most popular stand-alone policy types ..... 53*
*Bancassurance operating models differ substantially across the ten countries ..... 54*
Distribution share of banks ..... 56
*The overall distribution share of banks is likely to be highest in South Africa and lowest in Angola… ..... 56*
*… which is partly determined by the relative importance of life insurance in the former country ..... 56*
*Economic development will probably help banks to increase their distribution share in non-life insurance… ..... 57*
*… particularly through cross-selling opportunities related to mortgages and automotive finance ..... 57*
**3.0 ANGOLA ..... 59**
Macro-economic background ..... 59
Gross domestic product and purchasing power parity (PPP) ..... 59
*As a major oil producer in Africa, Angola's economy has grown strongly in recent years… ..... 59*
*…but poverty and unemployment remain key challenges ..... 59*
Total population, age structure and level of urbanisation ..... 60
*Angola's population is likely to exceed 25 million by 2020 ..... 60*
Political risk ..... 62
*Angola has made significant improvements particularly in the area of political stability ..... 62*
Other key indicators ..... 63
*Life expectancy at birth has moved up at a rate below that achieved elsewhere in sub-Saharan Africa ..... 63*

*Telecoms infrastructure has experienced radical changes in recent years ..... 64*
Introduction to the banking sector ..... 66
Structure of the banking sector ..... 66
*By the end of 2013, there were 23 fully-licensed banks operating in Angola ..... 66*
*… with BPC leading the market in terms of its number of customers… ..... 66*
*..and with a number of entities owned by Portugal's large banking groups ..... 66*
Development of the banking sector ..... 68
*Both the number of branches and number of accounts have risen substantially since 2005 ..... 68*
Consumer lending ..... 70
*Having fallen in value in 2010, mortgage balances have grown rapidly since ..... 70*
*Non-mortgage consumer lending balances per capita stood at USD 177 as of 2013 ..... 70*
Introduction to the insurance sector ..... 72
*Angola's life insurance market remains at an embryonic stage of development ..... 72*
*Over a third of the non-life insurance market is composed of accident and health insurance ..... 72*
The bancassurance market ..... 75
Regulatory environment ..... 75
*There are no particular restrictions in place to stop banks from distributing insurance products… ..... 75*
Importance of bancassurance as a distribution channel ..... 75
*… although the potential of bancassurance has yet to be fully realised… ..... 75*
*…even if the market entry of BIC Insurance may be something of a game changer ..... 75*
Product range, operating models and partnerships of the ten leading banks ..... 75
*Banco Sol is unique in offering stand-alone policies as well as bundled cover ..... 75*
*Nine insurance types achieve some degree of penetration among the leading ten banks in Angola ..... 76*
*There is a simple dichotomy in the operating models used in this context… ..... 77*
*…with the providers ranked second and third both acting as captive underwriters ..... 77*
Future outlook ..... 81
*The very small life insurance market is set to outgrow its more developed non-life equivalent ..... 81*
**4.0 CÔTE D'IVOIRE ..... 82**
Macro-economic background ..... 82
Gross domestic product and purchasing power parity (PPP) ..... 82
*The outlook for growth in GDP and PPP per capita up to 2020 is very positive ..... 82*
*… albeit GDP per capita was lower in 2013 than it had been in 2000 ..... 82*
Total population, age structure and level of urbanisation ..... 83
*Côte d'Ivoire's population grew by around 4 million between 2008 and 2014… ..... 83*
*…helping the urbanisation rate to exceed 50% for the first time ..... 83*
Political risk ..... 85
*Indices of political stability, regulatory quality and rule of law have all improved in recent years ..... 85*
Other key indicators ..... 86
*Life expectancy at birth is stuck at only 50 years for men and slightly over than for women ..... 86*
*Mobile phone subscriptions per 100 citizens reached 95.4 in 2013 ..... 87*
Introduction to the banking sector ..... 89
Structure of the banking sector ..... 89
*The retail banking sector is dominated by French banks and state-owned entities… ..... 89*
*…with La Caisse d'Épargne ranking first in terms of its number of customers ..... 89*
Development of the banking sector ..... 91
*The number of bank deposit accounts rose by almost ten-fold between 2005 and 2013 ..... 91*
Consumer lending ..... 93
*Mortgage balances outstanding surged in 2012 and 2013… ..... 93*
*… with a similar trajectory visible for non-mortgage consumer lending balances ..... 93*
Introduction to the insurance sector ..... 95
*The Ivorian insurance market grew at a real compound annual rate of 5.3% between 2009 and 2013… ..... 95*

*Motor insurance is the largest segment within the country's non-life insurance sector ..... 95*
The bancassurance market ..... 98
Regulatory environment ..... 98
*There are no specific restrictions for banks to act as distributors for insurance products ..... 98*
Importance of bancassurance as a distribution channel ..... 98
*Banks already enjoy a very significant distribution share in the life insurance sector… ..... 98*
Product range, operating models and partnerships of the ten leading banks ..... 98
*… which is a consequence of the activity in this arena of each of the ten leading institutions ..... 98*
*The provision of creditor and household insurance policies is particularly widespread… ..... 99*
*…and risk life insurance is often promoted in a stand-alone format ..... 99*
*Most bancassurance partnerships have been forged with a single, external partner… ..... 100*
*… with La Loyale the most prominent among these according to Finaccord's analysis… ..... 100*
*…albeit Allianz and UA-Vie are also highly visible in this market ..... 101*
*NSIA and Atlantique Assurance are the only captive underwriters identified ..... 101*
Future outlook ..... 104
*The value of the Ivorian insurance market is forecast to more than double from 2013 to 2020… ..... 104*
*… which should bolster further the prospects for the country's bancassurers ..... 104*

**5.0 GHANA ..... 105**
Macro-economic background ..... 105
Gross domestic product and purchasing power parity (PPP) ..... 105
*PPP per capita has been growing at a rapid and consistent rate, and is forecast to continue doing so… ..... 105*
*…even if high inflation and a widening of the budget deficit threaten Ghana's success story ..... 105*
Total population, age structure and level of urbanisation ..... 106
*Ghana's population is on track to exceed 30 million for the first time by 2020… ..... 106*
*…with a steadily rising proportion of its citizens residing in urban areas ..... 106*
Political risk ..... 108
*Ghana enjoys a relatively stable political environment in comparison to other African countries ..... 108*
Other key indicators ..... 109
*Life expectancy at birth now exceeds 60 years for both men and women ..... 109*
*Mobile phone subscriptions per 100 inhabitants reached 108.2 in 2013 ..... 110*
Introduction to the banking sector ..... 112
Structure of the banking sector ..... 112
*Rural banks and micro-finance institutions play an important role in Ghana's banking system ..... 112*
*GCB Bank lays claims to the largest base of retail banking customers in Ghana… ..... 112*
*… with ADB and Ecobank as its main competitors ..... 112*
*..and with Barclays Ghana, Stanbic Bank and Standard Chartered as the main non-indigenous rivals ..... 112*
Development of the banking sector ..... 114
*The country's number of bank branches is likely to exceed 1,000 in the near future ..... 114*
Consumer lending ..... 116
*Ghana's mortgage lending market is very small and has declined in real terms in recent years… ..... 116*
*… which is mainly a consequence of lack of affordability ..... 116*
*The performance of the non-mortgage consumer lending market has been a lot more encouraging ..... 117*
Introduction to the insurance sector ..... 118
*Premiums for life insurance have outgrown those for non-life insurance in recent years ..... 118*
*Close to a half of the non-life insurance market is composed of motor insurance ..... 118*
The bancassurance market ..... 121
Regulatory environment ..... 121
*Banks need to register as a corporate agent with the insurance regulator in order to promote insurance ..... 121*
Importance of bancassurance as a distribution channel ..... 121
*Banks have become a fairly important insurance distribution channel in Ghana, especially for life policies… ..... 121*
*…with several insurance companies trying to leverage the benefits of the channel ..... 121*
Product range, operating models and partnerships of the ten leading banks ..... 121

*Nine of the top ten banks offer insurance products among which five promote stand-alone policies....121*
*Ten types of insurance are available from at least one of the ten banks researched in Ghana….....122*
*…with creditor insurance linked to consumer finance and credit cards on offer most frequently....122*
*Bancassurance operating models are heavily oriented towards use of a single, external underwriter....123*
*Partnerships are dominated by three underwriters with Enterprise ranked first….....123*
*…followed by StarLife and Metropolitan in terms of their weighted share of partnerships....124*
Future outlook....127
*The value of the Ghanaian insurance market is likely to be more than USD 1 billion by 2020….....127*
*… which should be to the benefit of the country's bancassurers....127*
**6.0 KENYA ....128**
Macro-economic background....128
Gross domestic product and purchasing power parity (PPP) ....128
*Kenya's economy has enjoyed positive progress in recent years....128*
*…albeit poverty and a high mortality rate remain key challenges ....128*
Total population, age structure and level of urbanisation ....129
*By 2020, there are likely to be well over 50 million people living in Kenya….....129*
*… with the vast majority still residing in rural areas....129*
Political risk....131
*Politically, Kenya has become somewhat less table in recent times….....131*
Other key indicators....132
*… albeit life expectancy at birth has improved quite markedly....132*
*The use of mobile phones to make financial transactions is extremely widespread in Kenya….....133*
*…with M-Pesa having been particularly influential in this respect....133*
Introduction to the banking sector ....135
Structure of the banking sector ....135
*Indigenous banking organisations enjoy a strong foothold in the Kenyan market….....135*
*…with the country's three largest banks originating in Kenya itself....135*
*Co-operative Bank of Kenya has the most customers followed by Equity Bank Kenya and KCB....135*
Development of the banking sector ....137
*The number of fully-licensed banks changed little between 2005 and 2013….....137*
*… but other metrics, such as the number of branches, ATMs and bank deposit accounts, all soared ....137*
Consumer lending....139
*While still small, Kenya's mortgage market grew at a fairly consistent rate from 2009 to 2013… ....139*
*… even if home ownership is still limited to the highest income groups....139*
*Non-mortgage lending balances per capita remain higher than mortgage lending balances per capita....140*
Introduction to the insurance sector ....141
*The total insurance market in Kenya more than doubled in value between 2009 and 2013….....141*
*… with life insurance slightly out-performing non-life insurance ....141*
The bancassurance market....145
Regulatory environment ....145
*Compared to some other sub-Saharan countries, Kenya has a well-defined regulatory framework….....145*
*…whereby banks have to set up an insurance agency in order to distribute insurance products ....145*
Importance of bancassurance as a distribution channel ....145
*Kenyan banks control a very significant distribution share of the country's life insurance market ....145*
Product range, operating models and partnerships of the ten leading banks....145
*All ten leading banks offer some type of insurance with stand-alone policies available from five of them....145*
*Four insurance policy types are on offer from each of the leading ten banks....146*
*Accident and commercial insurance are the most popular stand-alone options....146*
*Joint ventures constitute the most regularly used bancassurance operating model in Kenya....147*
*CIC benefits particularly from its partnership with Co-operative Bank of Kenya....147*
*…and Britam has established partnerships with three of the top ten banks ....148*
*Fourth-ranked Chase Assurance is the sole captive underwriter....148*

Future outlook....151
*Relative to 2013, the Kenyan insurance market may have tripled in value by 2020....151*
**7.0 MOZAMBIQUE....153**
Macro-economic background....153
Gross domestic product and purchasing power parity (PPP)....153
*The economy of Mozambique is one of the most dynamic in sub-Saharan Africa….153*
*… although the country remains one of the poorest in the world....153*
Total population, age structure and level of urbanisation....154
*Mozambique's population is on course to exceed 30 million for the first time by 2020….154*
*… with just over third of inhabitants likely to be living in an urban setting by that time....154*
Political risk....156
*Recent years have seen an improvement in Mozambique's political stability....156*
Other key indicators....157
*Life expectancy at birth for men remains stubbornly below 50....157*
*Mobile phone subscriptions per 100 inhabitants advanced from 7.2 in 2005 to 48.0 in 2013….158*
*… with two important mobile money transfer services having been launched in recent times....158*
Introduction to the banking sector....160
Structure of the banking sector....160
*Portuguese banks hold majority stakes in the two largest banks in Mozambique….160*
*..with overseas investment also having been made in a number of other leading banks....160*
Development of the banking sector....162
*There has been strong growth in number of branches, number of ATMs and number of deposit accounts....162*
Consumer lending....164
*The very small mortgage lending market has grown fitfully in recent years….164*
*… with home loans accessible to only a small proportion of the population....164*
*Rapid and consistent growth has been achieved in Mozambique's non-mortgage consumer lending market....165*
Introduction to the insurance sector....167
*Non-life insurance makes up more than 85% of the country's total insurance market….167*
*… with motor insurance the largest single segment within it....167*
The bancassurance market....170
Regulatory environment....170
*The Insurance Act of 2011 allowed banks to distribute insurance products….170*
Importance of bancassurance as a distribution channel....170
*… which has helped them to build a very solid position in this market....170*
Product range, operating models and partnerships of the ten leading banks....170
*Each of the top ten banks in Mozambique is involved in bancassurance….170*
*… with two policy types on offer from all ten and two each from eight of the top ten....171*
*Five of the 15 insurance types researched are not available from any of the top ten banks....171*
*Captive arrangements play a prominent role in Mozambique's bancassurance market….172*
*…with captive underwriter SIM ranked first by weighted share of partnerships….172*
*… followed by Hollard which enjoys links with as many as five of the leading ten banks....173*
*Other captive insurance providers include Global Alliance and Tranquilidade....173*
Future outlook....176
*The value of Mozambique's insurance market may have risen by more than three-fold by 2020....176*
**8.0 NIGERIA....177**
Macro-economic background....177
Gross domestic product and purchasing power parity (PPP)....177
*Nigeria's strong economic growth from 2008 to 2014 is likely to continue up to 2020....177*
*… thereby allowing it to overtake South Africa as the continent's largest economy....177*
Total population, age structure and level of urbanisation....178
*The country's population is likely to increase to more than 200 million by 2020….178*

*…with the percentage of inhabitants living in urban areas rising to well over 50%* ..... *178*
Political risk ..... 180
*Political stability remains a major problem in Nigeria* ..... *180*
Other key indicators ..... 181
*Life expectancy at birth has increased but more slowly than in other countries in sub-Saharan Africa* ..... *181*
*Mobile phone subscriptions per 100 inhabitants reached 73.7 in 2013* ..... *182*
Introduction to the banking sector ..... 184
Structure of the banking sector ..... 184
*The banking sector crisis in 2008 and 2009 caused widespread consolidation among banks…* ..... *184*
*… which has resulted in a more concentrated but healthier market* ..... *184*
*FirstBank Nigeria ranks first in terms of assets, branches and customers…* ..... *184*
*… followed by UBA Nigeria and Access Bank…* ..... *184*
*… with Ecobank Nigeria and Stanbic IBTC the largest non-indigenous competitors* ..... *185*
Development of the banking sector ..... 187
*ATMs and bank accounts have both surged in number in recent years…* ..... *187*
*… although there is plenty of scope for growth in mobile money transfer services* ..... *187*
Consumer lending ..... 189
*Mortgage balances outstanding declined in real terms between 2009 and 2013…* ..... *189*
*… which is partly a result of high interest rates and low affordability* ..... *189*
*Non-mortgage consumer lending balances have grown consistently in recent years* ..... *190*
Introduction to the insurance sector ..... 191
*Premiums for life insurance are easily outgrowing those for non-life insurance* ..... *191*
*Energy-related insurance accounts for a substantial proportion of Nigeria's non-life insurance market* ..... *191*
The bancassurance market ..... 195
Regulatory environment ..... 195
*Regulations coming into force in 2011 modified the approach of banks to the insurance sector…* ..... *195*
*… although banks can still invest indirectly through a group holding company* ..... *195*
Importance of bancassurance as a distribution channel ..... 195
*Banks' involvement in insurance is mainly focused on credit life and mortgage-related fire insurance* ..... *195*
Product range, operating models and partnerships of the ten leading banks ..... 196
*Only three banks distribute stand-alone insurance products but bundled cover is commonly marketed* ..... *196*
*A dozen insurance types are available from at least one of the top ten banks in Nigeria* ..... *196*
*The Nigerian bancassurance market features a wide range of operating models* ..... *197*
*Joint venture underwriter FBN Insurance broadened its product range in early 2014* ..... *198*
*Zenith Insurance is the most prominent captive underwriter in this market* ..... *198*
*Wapic benefits from a distribution relationship with Access Bank, its former parent company* ..... *198*
Future outlook ..... 201
*The Nigerian insurance market is likely to have more than doubled in value by 2020* ..... *201*
*The distribution share of banks is likely to rise from its current fairly low level* ..... *201*
**9.0 SOUTH AFRICA ..... 202**
Macro-economic background ..... 202
Gross domestic product and purchasing power parity (PPP) ..... 202
*Various factors have caused a slowdown in the South African economy in recent months* ..... *202*
Total population, age structure and level of urbanisation ..... 203
*South Africa's population is less skewed to younger age groups than others in sub-Saharan Africa* ..... *203*
Political risk ..... 205
*Readings for political stability, regulatory quality and rule of law are comparatively stable* ..... *205*
Other key indicators ..... 206
*Rates of life expectancy are lower than might be expected given the country's relative affluence* ..... *206*
*Mobile subscriptions in South Africa more than doubled between 2005 and 2013* ..... *207*
Introduction to the banking sector ..... 209
Structure of the banking sector ..... 209

*Absa, FNB, Nedbank and Standard Bank make up the country's 'big four' banks ..... 209*
*… in a country with relatively few banks given its overall population and wealth ..... 209*
Development of the banking sector ..... 211
*Most measures are indicative of a fast-growing banking sector in recent years ..... 211*
Consumer lending ..... 213
*South Africa has the only genuinely developed mortgage market in sub-Saharan Africa ..... 213*
*In real terms, non-mortgage lending balances have been growing at a compound annual rate of 7.9% ..... 213*
Introduction to the insurance sector ..... 215
*Life insurance accounts for over 80% of South Africa's total insurance market… ..... 215*
*… meaning that premiums per capita are among the highest in the world ..... 215*
The bancassurance market ..... 218
Regulatory environment ..... 218
*There are no particular restrictions to stop banking organisations from selling insurance products ..... 218*
Importance of bancassurance as a distribution channel ..... 218
*The distribution share of banks in South Africa is higher than in any other country in sub-Saharan Africa… ..... 218*
Product range, operating models and partnerships of the ten leading banks ..... 218
*… with a wide range of policy types on offer from most leading banks… ..... 218*
*… including commercial insurance products as well as consumer-oriented policies ..... 219*
*The majority of bancassurance products are underwritten by captive insurers… ..... 220*
*… such as those belonging to Absa, Nedbank and Standard Bank ..... 220*
*AIG and FNB Life are the most prominent external underwriters in the market ..... 221*
Future outlook ..... 224
*It is anticipated that premiums for non-life insurance will outgrow those for life insurance up to 2020 ..... 224*
**10.0 TANZANIA ..... 226**
Macro-economic background ..... 226
Gross domestic product and purchasing power parity (PPP) ..... 226
*The rapid growth of the Tanzanian economy is expected to continue up to 2020… ..... 226*
*…although lower income groups have yet to benefit from the economic success ..... 226*
Total population, age structure and level of urbanisation ..... 227
*Tanzania's population will expand by a further 9.2 million between 2014 and 2020… ..... 227*
*… although two thirds of all inhabitants will still be living in rural areas ..... 227*
Political risk ..... 229
*The country's index of political stability has improved markedly in recent years… ..... 229*
Other key indicators ..... 230
*… as has life expectancy at birth for both men and women ..... 230*
*Mobile phone subscriptions per 100 people surged from 7.6 in 2005 to 55.7 in 2013 ..... 231*
Introduction to the banking sector ..... 233
Structure of the banking sector ..... 233
*Tanzania's banking sector is characterised by the involvement of a variety of types of institution ..... 233*
*National Microfinance Bank lays claim to the largest portfolio of retail customers ..... 233*
*Six of the ten largest banks are owned by overseas parents ..... 233*
Development of the banking sector ..... 235
*Almost 400 new bank branches were opened between 2005 and 2013 ..... 235*
Consumer lending ..... 237
*The top three lenders control around two thirds of mortgage balances outstanding ..... 237*
*As elsewhere in sub-Saharan Africa, high interest rates limit faster growth… ..... 237*
*… and non-mortgage lending remains by far the larger segment within total consumer lending ..... 238*
Introduction to the insurance sector ..... 240
*Premiums for life insurance have been outgrowing those for non-life insurance… ..... 240*
*… although the latter still make up almost 90% of the market total ..... 240*
The bancassurance market ..... 243
Regulatory environment ..... 243

*The central bank and insurance regulator are likely to release new bancassurance regulations in 2014….....243*
*…which are especially likely to have an impact on the distribution of bundled insurance products.....243*
Importance of bancassurance as a distribution channel .....243
*The distribution share of banks in Tanzania's life insurance market seems likely to be very substantial… .....243*
*…although many banks are awaiting regulatory clarification before offering a wider product range .....244*
Product range, operating models and partnerships of the ten leading banks .....244
*Nine of the top ten banks offer insurance products in one form or another .....244*
*Policies linked to mortgages and personal loans are available most commonly in Tanzania .....245*
*CRDB Bank promotes the widest range of policies, including several stand-alone products .....245*
*African Life benefits from partnerships with four banks including National Microfinance Bank .....246*
*Kenyan Alliance also works with four of the top ten banks .....246*
*Absa Life and Heritage are the only captive underwriters identifiable in Tanzania .....246*
Future outlook.....249
*In nominal terms, the Tanzanian insurance market is forecast to grow at a compound annual rate of 16.3% .....249*
*This growth, plus new regulations, may help bancassurance to develop further.....249*
**11.0 UGANDA.....250**
Macro-economic background.....250
Gross domestic product and purchasing power parity (PPP) .....250
*Like other countries in sub-Saharan Africa, Uganda's recent economic performance has been favourable .....250*
Total population, age structure and level of urbanisation .....251
*Most of the country's population live in rural areas although urbanisation is increasing gradually.....251*
Political risk.....253
*The relevant indices indicate that political stability has improved while regulatory quality has diminished.....253*
Other key indicators.....254
*Life expectancy at birth has improved substantially in Uganda, especially for women .....254*
*Mobile phone subscriptions lag behind other peer countries in sub-Saharan Africa .....255*
Introduction to the banking sector .....257
Structure of the banking sector .....257
*More than 50% of Ugandans now have access to formal financial institutions .....257*
*Stanbic Bank and Centenary Bank are the two largest banks when measured by number of customers.....257*
*Six of the top ten banks are owned by overseas parents .....257*
Development of the banking sector .....259
*The number of fully-licensed banks rose from 15 in 2005 to 25 in 2013.....259*
Consumer lending.....261
*Mortgage lending expanded at a compound annual rate of 11.4% between 2009 and 2013….....261*
*…albeit mortgages remain out of reach for the vast majority of the population .....261*
*Progress in the non-mortgage consumer lending market has been slower and less even.....262*
Introduction to the insurance sector .....263
*Insurance penetration remains well below that of peer countries in sub-Saharan Africa .....263*
*Premiums for non-life insurance make up the vast majority of the market total….....263*
*… with accident and health cover worth almost as much as motor insurance .....263*
The bancassurance market.....267
Regulatory environment .....267
*Banks are currently not permitted to sell any form of stand-alone insurance….....267*
*…although it is very likely that this ban will be lifted before the end of 2014.....267*
Importance of bancassurance as a distribution channel .....267
*Banks constitute a minor distribution channel in the context of the overall market….....267*
Product range, operating models and partnerships of the ten leading banks .....267
*… as a consequence of the fact that they have been limited to offering bundled products….....267*
*… which itself determines the narrow variety of policies on offer from Ugandan banks.....268*
*Captive underwriters play a fairly important role in the Ugandan bancassurance market.....269*
*Jubilee is ranked first by weighted share of partnerships….....269*

*…followed by Liberty Life and Goldstar, both of which are bank-owned underwriters ..... 269*
Future outlook ..... 272
*By 2020, the total insurance market may have increased in value to more than USD 450 million… ..... 272*
*…and bancassurance is likely to develop further assuming liberalisation of the channel ..... 272*
**12.0 ZAMBIA ..... 273**
Macro-economic background ..... 273
Gross domestic product and purchasing power parity (PPP) ..... 273
*Zambian GDP is likely to have grown at a compound annual rate of 9.2% between 2008 and 2014… ..... 273*
*…but poverty and employment remain key challenges ..... 273*
Total population, age structure and level of urbanisation ..... 274
*The country's population is set to grow by a further 3 million between 2014 and 2018 ..... 274*
Political risk ..... 276
*Zambia has experienced a significant upturn in its political stability index ..... 276*
Other key indicators ..... 277
*Zambian women can now expect to live to an average age of just over 60 (and men to over 56) ..... 277*
*Mobile phone subscriptions have increased very rapidly in recent years ..... 278*
Introduction to the banking sector ..... 280
Structure of the banking sector ..... 280
*Banks with foreign parents play an important role in the Zambian banking sector… ..... 280*
*… competing alongside a variety of non-bank financial institutions ..... 280*
*Zanaco is the country's largest bank with around 750.000 customers ..... 280*
*Barclays Zambia and Finance Bank are its main competitors ..... 280*
Development of the banking sector ..... 282
*The number of bank branches more than doubled between 2005 and 2013 ..... 282*
Consumer lending ..... 283
*The mortgage market remains in an embryonic state… ..... 283*
*…and is mainly limited to high-income households ..... 284*
*Non-mortgage consumer lending balances are poised to exceed USD 1 billion in value ..... 285*
Introduction to the insurance sector ..... 286
*Motor insurance accounts for over 40 % of all non-life insurance premiums ..... 286*
The bancassurance market ..... 290
Regulatory environment ..... 290
*Banks need to be licensed as insurance agents in order to distribute insurance policies… ..... 290*
*…although many are active in this area on a referral basis ..... 290*
Importance of bancassurance as a distribution channel ..... 290
*The distribution share of banks is far higher in life insurance than in non-life insurance ..... 290*
*Barclays Life was the first captive underwriter to operate in Zambia ..... 290*
Product range, operating models and partnerships of the ten leading banks ..... 291
*All of the top ten banks apart from Investrust Bank are involved in bancassurance ..... 291*
*Ten (out of 15) insurance types are available from at least one of the top ten banks… ..... 291*
*… although four from just one bank ..... 292*
*Banks generally source insurance products from external underwriters ..... 292*
*ZSIC leads by weighted share of partnerships thanks to its key relationship with Zanaco… ..... 293*
*… with Professional Life used by two of the top ten banks… ..... 293*
*…and Aflife (majority-owned by Sanlam) by three ..... 293*
*Barclays Life is the one captive underwriter active in Zambia ..... 293*
Future outlook ..... 296
*The Zambian insurance market is likely to triple in value between 2014 and 2020 ..... 296*
*More banks may be tempted to follow the example of Barclays by launching captive underwriters ..... 297*
